Extraction Functionality

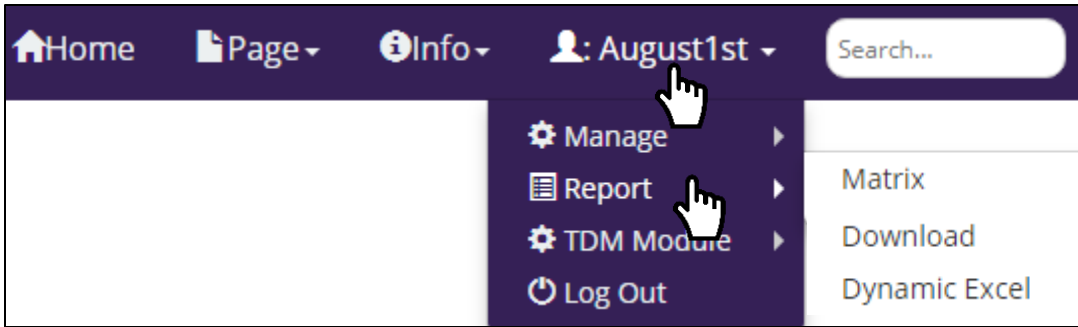

The screenshot displays the Trade Data Monitor interface. The main title is "Global Imports from _World" with the commodity set to "_All, All Commodities" and the time period "Year to Date: January, 2017 - 2019". The interface includes a "Query Dashboard" on the left with various filters and a main data table on the right. A dropdown menu is open over the table, showing options: "Print", "Excel", "Excel++", "Bookmark", and "Graph it". A red box highlights the "Excel" and "Excel++" options. A callout box points to this menu with the text: "Create Excel file of Data Currently Displayed on the Screen". Another callout box points to the "Excel++" option with the text: "Download up to 84 Months of Data *Note: Excel ++ Only available when viewing Time Period in a 'Series'". In the "Query Dashboard", the "Time Period" dropdown is highlighted with a red box, and a callout box points to it with the text: "*For Excel++, Change Time Period to Series Type". Below the dashboard, the "Display Parameters" section has a "Series" dropdown highlighted with a red box, with a callout box pointing to it: "*For Excel, Time Period Does Not Matter". The data table shows columns for "Availability", "2017", "2018", "2019", and "Market Share(%)".
